

The Markus Rescue Cradle is designed for workboats with lifting heights from 0.5 m (1.64') to 2.0 m (6.56'), with a suitable midship rescue zone. It is also suitable for Charter boats, Tourist boats, and Patrol boats.

Width: 1.2 m (4')

Vertical length: Variable.

Weight: Variable.

Lifting height: Variable.

**Important:** Add 2 m (6.56') below the waterline to enable MOBs' first step.

### Methods of use:

1. Climbing,
2. Manual horizontal (parbuckle) lifting by one or two deck crew,
3. Usable with mechanical hoisting systems and short boom.

### Other Specifications:

- Stowage diameter: 125 x 25 x 5 cm (50 x 10 x 4 Inches) 0,016 cubic meters.
- Weight from 5.1 kg to 7.3 kg (11.2 lb to 15.9 lb)
- Packing: PVC / Polyester fabric bag. Color: Orange Red. White, gray, and black are available as special orders.
- Made of Polyester webbing and marine grade rigid plastic and metal parts.
- Each vertical webbing tensile tested in excess of 1000 kg (2204 lb).
- Each mesh tensile tested in excess of 500 kg (1102 lb).
- Tensile tested in excess of 3 metric tons (6614 lb) with an equal load on each vertical fastening webbing loop on the upper end.
- Workload is 14 Metric Tons (MT)
- Made to LSA / SOLAS standard as applicable. Subject to SOLAS-type approval.
- Supplied with Certificate of Conformity.

### Storage and fastening options:

- All nets include 4-7 buckle loops for storage and deployment fastening at the rescue platform.
- Mobile Option One (Default): Fixed on an extra link pipe with two extension ropes and snap hooks.
- Mobile Option Two: Fixed onto rail or fastening eyes with three fixed or adjustable extension ropes and snap hooks.

SCN6 Upper end "L" Link-pipe version.

SCN6 Fixed extension ropes (FER) with snap hook.

### Available SCN6 accessories and design components:

Product no. 7350002 – SCN6 Link pipe with 2 extension ropes, each with snap hook.

Product no. 7350011 – SCN6 fixed length of extension rope (FER) with snap hook. (3 pcs)

Product no. 7350012 – SCN6 100 to 200 cm (40" to 80") adjustable extension rope (AER) (3 pcs)

**Hypalon patch with rectangular SS link for 25 mm webbing**

Product no. 7300002

**SS Hook**

Product no. 7300004

**SS rectangular link, clip and two screws. To be screwed to GRP or aluminum construction.**

Product no. 7300003

### Properly Sizing your Net

Properly sizing your rescue net is crucial for safe and effective vertical climbing and horizontal lifting during an emergency.

- **Vertical Length:** Measure the distance from the fastening point (e.g., deck or railing) down to the waterline, then add 1.5 to 2 meters.
  - Important: This ensures the net extends below the waterline by the recommended amount, allowing a MOB to place their foot securely on the lowest rung and climb to safety.
- **Width:** Select a minimum width of 1.2 meters (4 feet) to provide full spinal support when lifting a person horizontally.
  - Important: This width is crucial for safe and effective rescue operations.
